As a dedicated and versatile Computer Science Student and a Full-Stack Web Developer, I have successfully delivered several real-life projects using modern web development technologies, including the MERN (MongoDB, Express.js, React, Node.js) and MEAN (MongoDB, Express.js, Angular, Node.js) stacks. Proficient in Python, JavaScript, and C++, I bring extensive hands-on experience with cutting-edge frameworks and database management systems to the table. My proven track record in executing complex projects has not only honed my technical expertise but also reinforced my collaborative teamwork abilities. I am passionate about leveraging my skills to design, develop, and deploy innovative digital solutions that effectively address real-world challenges.

Education

Silver Oak University, Ahmedabad, IN

Aug 2021 – May 2025

Bachelor of Technology in Computer Engineering

GPA: 8.35/ 10.00

- **Relevant Courses:** Python Programming, Object Oriented Programming, Cyber security, Big data analytics.

Skills

Programming Languages	: React, Python, C++, JavaScript, HTML & CSS.
Application and Web Development	: NodeJS, React, HTML 5, Rest APIs.
Database	: GraphQL, PostgreSQL, MongoDB.
Frameworks and Libraries	: Matplotlib, Pytorch, NPM.
Cloud Services	: Sanity and Versel.
Tools	: VSstudio, GitHub, PyCharm, Anaconda.
Methodologies	: Code splitting and Lazy loading, Agile, Scrum, DevOps.
Soft skills	: Effective Communication, Problem Solving & Critical Thinking, Leadership

Certification

- [Google cloud Digital leader](#)

Work Experience

React Developer Intern - Codage Habitation, Ahmedabad, IN

Dec 2024 – Currently

- Successfully completed numerous real-world full-stack web development projects utilizing advanced technologies such as React, PostgreSQL, GraphQL, and Next.js, demonstrating robust hands-on experience with modern web stacks.
- Spearheaded a major project initiative by applying cutting-edge React.js techniques and modern front-end practices, resulting in a 50% improvement in accuracy and overall performance.
- Led client project enhancements by collaborating closely with senior developers, streamlining website functionality, and continuously expanding my technical expertise to drive innovative digital solutions.

Software Intern - InsuredHq, Ahmedabad, IN

June 2023 – Dec 2023

- Gained valuable industry experience in a dynamic corporate environment.
- Enhanced the company website by developing and integrating new features, which contributed to increased traffic and improved user engagement.
- Leveraged industry-standard tools such as Git, GitHub, and Confluence to streamline version control, effectively manage ongoing projects, and enhance documentation, resulting in a 30% improvement in code quality and overall project efficiency.

Academic Projects

Calendo

Dec 2024 – Currently

- Developed Calendo, a time and meeting management-based solution.
- It is a full stack application designed using Next.js, MongoDB, and TypeScript implementing User authentication and authorization.

**Jobify
2024**

July 2024 – December

- During undergrad a one-stop digital platform designed to streamline the search and hiring process for job seekers and employers with new and additional features yet not available in the market with profile building and precise helping till the job is received.
- We studied flaws of already existing platforms and did research to overcome those problems which can be used in Jobify.

- During undergrad I got a chance to work for a blood management system which was a real-life problem and revolutionized blood donation and seeking process with the help of an online platform named Rakt.
- Had a wonderful chance to meet local hospitals for data collection which was helpful for our application.
- With the help of data collected, we implemented real time analytics in our application.

Extracurricular Activities or Volunteer Experience

- ❑ Point of contact for Technical Fest "Kalpavruksha" at Silver Oak University, managing event planning and execution. (August 2024)
- ❑ Participated in inter-college sports events, including cricket, football, and kabaddi, fostering teamwork and leadership. (Jan 2022)
- ❑ Participated in Google developer Programs that are held within universities. (March 2023- May 2025)
- ❑ Took part as a developer in SOU iVATHON at Silver Oak University and learned more about tech advancement. (Jan 2025)
